

No Voice Unheard, No Right ignored

The Department of Health wants to know what people think about some ideas to make things better for people with learning disabilities

Anyone can tell the Department of Health what they think

Leicestershire County Council is going to tell the Department of Health what the Council thinks about the Department of Health ideas

Leicestershire County Council is asking people that it works with what they think to help the Council decide what to say

There are 3 questions the Council would like people with learning disabilities and family carers to help answer

Do you think that only services that involve people with learning disability or autism and families running them should get contracts with the Local Authority or NHS?

It can be hard to know what to do or to get support if something goes wrong. Do you think anything else is needed to help people to speak up if something has gone wrong?

Do you think people with learning disabilities or autism and families should be given easy read information about their rights by a named professional?

If you would like the Council to know what you think please tell Louisa at Louisa.whait@leics.gov.yk

Or

Ring 0116 3050385

Please tell Louisa what you think by the 13th May 2015
